Examiner's Detailed Office Action

Claim Rejections - 35 USC § 101

1. Upon further review, the allowance of claims 26-31 is withdrawn. An action on the merits appears below.
2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
3. Applicant's invention disclosed in claims 30 & 31 is directed to nonstatutory subject matter i.e., claims 30 and 31, are directed towards a signal-bearing medium, which may include a transient carrier wave, which is not fixed in a tangible medium, readable by a machine. For this reason claims 30 and 31 are rejected.
4. However, it should be noted that if claims 30 & 31 were amended to recite a "recordable" before "machine" at line 1 of each claim, the under 35 USC § 101 would be withdrawn, and the claims would thus, be allowable.
